

Cleaning your gutters is hazardous, dirty and time consuming.

The end to clogged, overflowing gutters!

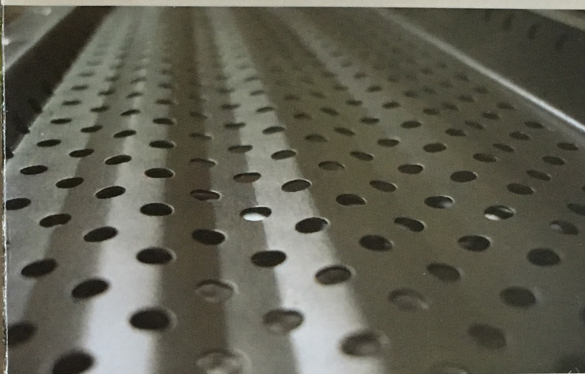

- No more ladders to climb
- No more gutters to clean
- **Shur FloX** keeps your gutters free-flowing
- Adds years of life to your gutter system
- Professionally installed by a factory trained contractor

20 year warranty

Another product from U.S. Aluminum, for 35 years a leading manufacturer of quality aluminum rain gutter products. It is a warranty you can depend on.

How

SHUR FLOX
works...

Rainwater from your roof drains through our patented perf-flow filtration system.

Leaves, pine needles and twigs stay on the top of the panel. **Shur FloX's** contoured design promotes air circulation from above and below. Dry leaves will blow away with a gentle breeze.

Shur FloX is installed to fit snugly to the top of your gutters. The low profile makes it virtually invisible from the ground.

With **Shur FloX**, there is no lifting or penetration of your roof shingles. **Shur FloX will not** void any roof warranties.

Frequently Asked Questions...

Will anything clog Shur FloX?

No, the perf flow drain holes allow only water to enter your gutters. Your gutter will always remain free flowing.

Will Shur FloX work during heavy rainfalls?

Shur FloX can handle record rainfall amounts.

Will I have to replace my gutters?

No! Shur FloX can be installed on 5" or 6" gutters. Unless damaged, there is no need to replace your existing gutters.

How long will Shur FloX last?

Manufactured with hi temper aluminum, it will never rust, rot or distort. WE GUARANTEE IT!

Will Shur FloX work with metal, shake or tile roofs?

Yes, Shur FloX is installed on top of your gutters. It performs well with any type of roof material or roof pitch.

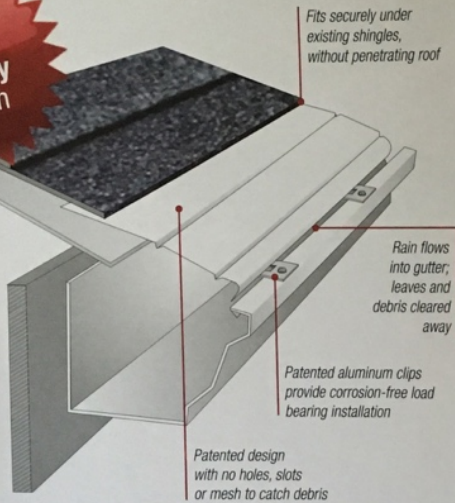

Will Shur FloX work when covered with wet leaves or pine needles?

Yes! Testing shows Shur FloX's filtration system keeps working even when covered by wet leaves and debris.

Full 20 Year Warranty on finish

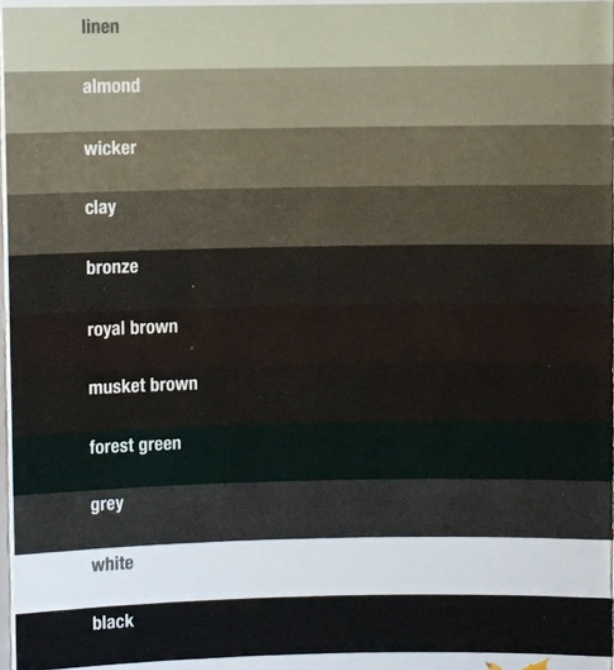

How Hallett Gutter Cover Works

- One piece design clears away more leaves and debris than products with holes, slots and mesh.
- Textured design creates surface tension and electromagnetic attraction - keeping leaves and debris out of gutters, while allowing up to 6 inches of rainfall per hour into gutters.
- Patented aluminum clips allow for water to flow freely within gutter, while giving a secure and load bearing installation without risk of corrosion.
- Design channels rainflow into gutter.
- Narrow opening allows rain to flow into gutter while keeping leaves and debris out.

The Ultimate in Leaf Control™

Hallett Gutter Cover is a single-piece gutter guard system that virtually eliminates the need to clean gutters. Its low profile design fits snugly under existing roofline, allowing for simple installation without damages to structure, and the expansion and contraction of the gutters that accompanies seasonal changes.

Protect the investment in your home by having Hallett Gutter Cover installed today. Eliminate potential mold risks in basements as well as costly foundation damage and landscape erosion caused by gutter overflow.

The Ultimate in Leaf Control™

Patent number D416,079

The Ultimate in Leaf Control™

Hallett Gutter Cover

- Blends into existing gutter line without impacting your home's curb appeal
- Keeps leaves, sticks, dirt and debris out
- Directs up to 6 inches of rain/hour away from your home
- Fits easily into existing gutters and roofing
- Virtually eliminates costly and risky gutter cleaning
- Prevents animals and birds from nesting

Without Hallett Gutter Cover

- Dirty, risky and costly hand cleaning of gutters
- Water damage to fascia, siding and foundation from gutter overflow
- Mold risk inside basements and attics
- Landscape erosion
- Insect infestations

Facts

- Hallett Gutter Cover is engineered to install and work on any roof, no matter how steep the angle
- Hallett is one of the strongest products on the market, made with heavy gauge aluminum and patented fastening clips
- Hallett Gutter Cover easily handles the heaviest rain, snowfall, and damaging winds
